

PASSION AT THE CENTER OF EVERYTHING.

From a simple sketch in search of the unique vehicle, Stelvio has evolved into something greater. Equipped with the latest technology, Stelvio is reestablishing itself as one the most sought after and award-winning SUVs in its category. As always, it delivers unrivaled performance and driving pleasure that can only be attributed to the style and work of Alfa Romeo.

FOR AN IRRESISTIBLE PERFORMANCE.

Stelvio delivers on the longstanding Alfa Romeo promise of mechanics that create beautiful emotions, enabled by a series of exclusive patented technologies. All of these systems work together with the exclusive Q4 all-wheel drive technology, the Integrated Brake System (IBS), and the Chassis Domain Control (CDC). As the brain of all the systems, the CDC's only function is to monitor and analyze road conditions and react immediately by changing the vehicles behavior when needed.

ALFA™ LINK SUSPENSION

The all aluminum Alfa™ Link Suspension System ensures excellent dynamic driving behavior and unique handling. The front suspension features a double-wishbone system with semi-virtual steering axles that keeps the wheels perfectly perpendicular to the road even on the most intense curves. The rear suspension with its Multilink system with four and a half links guarantees the best of both worlds between lateral grip and comfort, on uneven surfaces.

Q4 TRACTION

The Q4 system increases the excitement of the signature rear-wheel drive by being able to switch seamlessly into all-wheel drive without any driver intervention. Equipped with the active transfer case and specific front differential, Stelvio can sense when to shift and send torque to the front or rear axles. This technology guarantees impeccable performance on uneven roads or in unsavory weather conditions.

ALFA™ ACTIVE SUSPENSION

The Alfa™ Active System dynamically adjusts the suspension response according to the driving conditions and the mode selected with the Alfa™ DNA selector: a softer shock absorbing setting for a more comfortable ride, or a more rigid setting for more precise sporty driving.

7" TFT INSTRUMENT PANEL

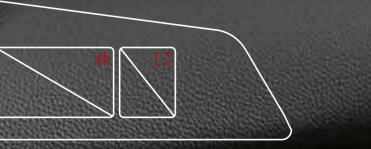

INTERACTIVE WIDGETS

VISUALIZE FULL-SCREEN MAPS

MANAGE THE VEHICLE PERFORMANCE

ZOOM-IN AND MOVE ICONS WITH A SIMPLE TOUCH

POWER

Experience the premium look and feel while you choose the driving style that fits you and your driving conditions best with the Alfa™ DNA selector: Dynamic, Natural and Advanced efficiency.

Sharper throttle response, enhanced steering feedback, more reactive braking and performance shift-mapping for even sportier driving experience

NATURAL

For perfect balance in daily driving, combining efficiency and comfort.

ADVANCED EFFICIENCY

Engineered to maximise fuel efficiency and reduce

COMMAND

Manage and move through all of the various applications and widgets. Scroll through and change performance features, climate and connected services without ever having to touch the screen.

CONTROL

The newly redesigned center console features a leather-wrapped gear shifter that delivers comfort and power as you change through gears.

Permitted load	640
Roof load	75
Height (mm)	1648
Width (mm)	1903
Length (mm)	4687
Wheelbase (mm)	2818

The values of the CO₂ emissions and fuel consumption are defined on the basis of official tests in compliance with the provisions under the applicable EU Regulation in force at the time of the homologation. In particular, the values indicated are determined on the basis of the WLTP test procedure. The CO₂ and fuel consumption values obtained according to applicable regulation are indicated in order to allow the comparison of vehicle data. The values of CO₂ and fuel consumption may not reflect the actual values of CO₂ and fuel consumption, which depend on many factors related, by way of example but not limitation, to the driving style, the route, the weather and road conditions, as well as the condition, use and equipment of the vehicle. The indicated value of CO₂ and fuel consumption refers to the versions of the vehicle with the highest and the lowest values. Those values may change with subsequent configuration depending on equipment selected and/or size of tires selected. The indicated values of CO₂ and fuel consumption are not definitive and may evolve as a result of changes in the production cycle. In any case, the official values of CO₂ and fuel consumption of the vehicle purchased by the customer will be provided with the vehicle's accompanying documents. In cases where the values of CO₂ and fuel consumption are relevant for the purposes of calculating taxes and duties related to the vehicle, reference should be made to the applicable laws in each Country.

Where history and future meet

Lines that have changed the way we imagine design; cars and drivers who set the pace for competition on the track; technologies that have redefined the standards of innovation. Beauty, speed, robustness and steady production: this is Alfa Romeo's legacy. It's driving passion, it's evolution, it's our heart.

La Macchina del Tempo, Museo Storico Alfa Romeo will guide you through this extraordinary all-Italian story. Six floors of history binding past, present and future and complimenting the achievements of an extraordinary brand, its vehicles, its technology and style.

Heritage

PASSIONE SENZA TEMPO

CERTIFICATE OF ORIGIN /

THE HISTORY OF YOUR CAR

FCA Heritage offers you the opportunity to discover the history of your classic Alfa Romeo, starting from its chassis number. After accurate examination of the relevant documents at the company's historical archives, a certificate is issued stating the vehicle's year of manufacture and its original configuration (e.g. model specifications, engine serial number, exterior and interior features).

CERTIFICATE OF AUTHENTICITY /

CERTIFIED PURE PASSION

A panel of Alfa Romeo experts can verify the authenticity of your vehicle and issue an official certification, a numbered metal plaque and a certification book – so you can showcase the added value your classic Alfa Romeo deserves.

RESTORATION /

TIMELESS CHARM

FCA Heritage's dedicated team of professionals takes care of your classic vehicle restoring, replacing or reconstructing any of its parts, to bring your Alfa Romeo back to its original beauty.

For information on the Alfa Romeo Classiche program, please call the international toll-free number 00800 25320000 or visit www.fcaheritage.com online.
